## EXPERIENCE

### **Flashpoint, Remote — Senior Software Engineer II**

OCTOBER 2018 - PRESENT

- Managed and maintained the company's core React component library supporting multiple products
- Adhered to a defined design system when developing new pages and features
- Collaborated with stakeholders to provide full feature implementations through requirements gathering, planning sessions and documentation, development, and QA test cases
- Ensured quality output through thorough code review and integration testing using Cypress
- Leveraged tracking software to assess feature success and usability
- Enhanced platform usability through improved performance, polished user interfaces, and accessible data
- Build RESTful APIs using Python, Flask, and Node.js

### **Booksmart Touring/Daysheets, Philadelphia, PA — Co-founder, Lead Engineer, Advisor**

JUNE 2014 - JULY 2020

- Plan, organize, and execute the development of the music touring platform utilizing AngularJS and Django RestFramework
- Manage a team of part time employees
- Play a main role in architecture and feature design by translating business requirements into technical specification sheets
- Set groundwork for future development and best practices for the website
- Monitor Amazon Web Services to maintain efficient and stable environments
- Find and interview potential employees

### **Radial, King of Prussia, PA — Senior UI Developer**

APRIL 2018 - OCTOBER 2018

- Optimized JavaScript device fingerprinting scripts, improving fraud detection performance.
- Developed Ruby on Rails configuration pages and redesigned UIs for a cleaner, more dynamic experience.

## EDUCATION

### **Drexel University, Philadelphia, PA — BS Computer Science**

JUNE 2011 - JUNE 2016

Concentration in Human Computer Interaction and Machine Learning

## SKILLS

|            |         |         |             |           |              |
|------------|---------|---------|-------------|-----------|--------------|
| TypeScript | React   | Python  | HTML5       | CSS3/SASS | Django/Flask |
| Cypress    | Webpack | Node.js | RESTful API | Git       | Cursor       |
